REPLY TO THE ~~SR-6J~~ REGION OF:

July 9, 2012

Mr. James Stark, Jr.
202 E. Maryland St.
Evansville, IN 47710

**Re: U.S. EPA Soil Cleanup
Jacobsville Neighborhood Soil Contamination Site, Evansville, Indiana**

Dear Mr. Stark:

As we discussed in our telephone conversation on Tuesday, July 3, 2012, the U.S. Environmental Protection Agency (U.S. EPA) would like to complete the cleanup of your property at 202 E. Maryland St., Evansville, Indiana. The excavated areas have been backfilled, erosion controls have been installed, and orange mesh temporary fencing has been erected around the property. To complete the cleanup, U.S. EPA will conduct the following activities:

- (1) place sod on backfilled areas and water sod for thirty (30) days;
- (2) reinstall fencing that was removed during remediation and replace damaged portions of posts, fabric, and hardware with locally available materials that match existing to the extent possible; location and extent of fencing will be consistent with original fencing;
- (3) water the tree in the backyard every other day for sixty (60) days;
- (4) arrange for outdoor air conditioning unit to be inspected by an HVAC professional (unit filter will be cleaned by HVAC professional if he/she recommends it); and,
- (5) replace section of concrete sidewalk in back yard that was damaged during excavation activities.

To indicate your agreement and allow U.S. EPA to gain access to your property to complete the cleanup work outlined above, please sign below and return to U.S. EPA via fax (312.692.2483), email (tierney.mary@epa.gov), or mail (Mary Tierney, U.S. EPA (SR-6J, 77 W. Jackson Blvd, Chicago, IL 60604). U.S. EPA will schedule the work as soon as possible after receiving your signature on the attached authorization for access and completion of work form.

Sincerely,

A handwritten signature in black ink, appearing to read "Mary Tierney", is written over a horizontal line.

U.S. EPA Region 5

AUTHORIZATION FOR ACCESS AND COMPLETION OF WORK

I, James Stark Jr., landowner, consent to officers, employees and authorized representatives of the United States Environmental Protection Agency (U.S. EPA) entering and having access to the property owned by me at 202 E. Maryland, Evansville, IN, to conduct the following final cleanup activities at this property:

- (1) place sod on backfilled areas and water sod for thirty (30) days;
- (2) reinstall fencing that was removed during remediation and replace damaged portions of posts, fabric, and hardware with locally available materials that match existing to the extent possible; location and extent of fencing will be consistent with original fencing;
- (3) water the tree in the backyard every other day for sixty (60) days;
- (4) arrange for outdoor air conditioning unit to be inspected by an HVAC professional (unit filter will be cleaned by HVAC professional if he/she recommends it); and,
- (5) replace section of concrete sidewalk in back yard that was damaged during excavation activities.

This written permission is given by me voluntarily with knowledge of my right to refuse and without threats or promises of any kind.
